

Moving you forward

Enhance personal interaction • Expand reach • Improve operational efficiency

ERGOTRON[®]
HEALTHCARE

Quality products for every area in the facility—and beyond

Products designed to help caregivers thrive

With more than 36 years of designing ergonomic solutions for computer users worldwide—and 24 years specifically in healthcare—Ergotron is uniquely qualified to help your entire facility enhance personal interaction, expand the reach of care and improve operational efficiency.

Enhance personal interaction. Expand the reach of care. Improve operational efficiency.

CareFit™ Slim LCD and Laptop Carts

- Ultra lean, light and nimble
- Offers full sit-to-stand functionality with easy height adjustment
- Features a durable finish and three-function 4" (10,2 cm) casters for extra maneuverability
- Integrated accessory shelf on LCD cart fits a scanner, printer or wipes
- Integrated storage bin on laptop cart provides a clutter-free workspace

StyleView™ Carts

- Designed for nurses and personalized to enhance workflow and caregiving
- Choices for mounting displays: LCD arms and pivots, secure laptop, and single or dual displays
- Unsurpassed ergonomics whether sitting, standing or maneuvering
- Carts evolve as your needs change—several accessories are available to improve productivity
- Carts and power systems fully certified to UL 60601-1

Point-of-Care Wall Mount Products

- Enhances personal interaction between caregivers, their patients and patient data
- Ergonomic designs and added features provide ease of motion and proper positioning for optimal workplace comfort
- Choose from a wide range of wall mount products to meet various user, budgetary and space requirements

Charging Systems

- Charge, sync and/or secure multiple mobile devices
- Available as carts, wall mounts or desktop stations
- Choose from universal, open-architecture designs or products made for Apple®
- Certified for safety
- Lightweight and agile designs

WorkFit™ Sit-Stand Workstations

- Promotes a healthier way to work with ergonomic comfort and sit-stand mobility
- Choose from desks, mobile workstations, wall mount and desk mounts
- Additional accessories also available to improve productivity and comfort

Service and Product Support Programs

- Expect a superior customer experience
- Quality products are backed by specially trained support professionals and optional extended service programs
- Extended Global Service Programs protect your investment and ensure optimal product performance
- Customer Care includes live support via phone, chat and email

Our new line of slim and nimble medical carts

CareFit Slim LCD Cart

- Fits large all-in-one computer and monitors
- Very low profile; super-compact footprint
- 20" (50 cm) of sit-stand lift
- 5" independent monitor height adjustment; tilt and swivel
- Slide-out keyboard tray
- Includes printer and accessories shelf

CareFit Slim Laptop Cart

- Fits small laptops and two-in-ones
- Very low profile; super-compact footprint
- 24.6" (63,3 cm) of sit-stand lift
- Includes pull-out cable storage tray, power brick holder and easy-to-adjust device strap

CareFit Slim LCD and Laptop Cart:
Fits your people, workflow and environment

Short, tall or average clinicians can now work comfortably and effectively—no matter what their stature. Help all of your caregivers thrive with an expansive vertical range that easily adjusts to the ergonomic needs of the broadest range of users. The lightweight design makes it easy to move wherever your work takes you.

The slim depth and small footprint allows you to use it as a point-of-care solution at a patient's bedside, in a hallway or any other area. When not in use, it fits tightly against a wall to free up valuable space.

Need help determining which StyleView Cart is right for you? Use our helpful Finder Tool at styleview.ergotron.com/finder
 Or consult with an Ergotron healthcare expert

+ Determine your application:
 Point-of-care carts facilitate access to medical records and provide medication delivery anywhere in the facility
 Telehealth carts designed for telemedicine and video conferencing anywhere in the facility

+ Determine the primary use:
 Access to medical records and the delivery of medication
 Access to medical records and medication delivery/management with controlled access
 Mobile deployment of tablets or laptops

+ Choose display mount type: LCD arm, LCD pivot, laptop, and tablets & Microsoft Surface

+ Choose powered, non-powered or add-on power upgrades:
 Lithium Iron Phosphate (LiFe), sealed lead acid (SLA), non-powered and power upgrade options

+ Choose drawers, storage & accessories: Drawers, bins, sani-wipes holder, scanner shelf and more

+ Add a service program: Extended global service programs protect your investment, ensure optimal product performance and can provide additional support and benefits, such as:

- Site readiness • Fast, efficient product installation and integration
- Preventive maintenance and extended warranties • Improved asset management
- Enhanced in-house product expertise • Equipment audit and health assessment
- Next-business-day service contracts • Annual contracts and planned services

Our SV Medical Carts finder tool makes it easy to determine which StyleView configuration will best meet your workflow needs

LiFeKinnex™ Power System

Power LiFe-changing care

Safely power your medical carts to last longer so they're ready when you need them most. Using Lithium Iron Phosphate battery chemistry (LiFe), LiFeKinnex charges carts quickly without the risk of overcharging or overheating associated with other battery types. Designed for multiple workflows, the power system allows caregivers to plug in the unit to quickly charge the cart, even during use, or use the optional LiFeKinnex 4-Bay Charger to keep the cart moving with a hot swap.

- Safe battery chemistry
- Longer battery cycle life
- Simple attachment system
- Quick charging time
- Easy to connect
- Patent pending

Compatible with StyleView 4X carts, StyleView 10 light-duty carts, and CareFit Slim LCD and laptop carts

LiFeKinnex Battery: #98-246

LiFeKinnex Power Module: #98-247

LiFeKinnex 4-Bay Charger: COMING SOON

Why choose a StyleView™ cart powered with Lithium Iron Phosphate (LiFe)?

Certified. Lightweight.

Ultrafast recharge. Long battery LiFe.

Extremely lightweight and adjustable

The LiFe power system and compact, lightweight base combine with StyleView's ergonomic adjustability to decrease caregiver fatigue and enhance overall wellness and productivity

Ultrafast recharge ensures caregiver and cart uptime

A full recharge from full discharge can be completed in around two hours for typical loads.

Long battery 'LiFe' minimizes time and cost for maintenance and replacement

Proven to achieve thousands of cycles per lifetime and to last several years in a typical healthcare setting

Safe and certified

For patient and caregiver safety, the FULL cart and power system are certified to UL 60601-1

Includes StyleLink SKY

Cloud-based fleet management for StyleView carts

Proven safe battery chemistry

Through extensive testing, Lithium Iron Phosphate is proven to be a very safe battery chemistry

More add-on power solutions for non-powered StyleView carts

Cloud-based fleet management for StyleView carts

StyleLink™ SKY and StyleLink SKY Pro

StyleLink SKY harnesses the power of the cloud to monitor and manage your fleet of StyleView carts using a secure, web-based software application coupled to an endpoint client on the carts' local machines.

StyleLink SKY is an intuitive and scalable software application that provides real-time insight into the status and health of your entire fleet of StyleView carts. A self-monitoring version of the software is included as part of a preventive maintenance service contract (Bronze, Silver, Gold or Platinum). Or, you can receive StyleLink SKY Pro—which provides Ergotron proactive monitoring—by purchasing a Diamond-level service contract or upgrading an existing service contract.

- Secure, web-based software application that monitors and manages your fleet of StyleView carts
- Seamless and centralized fleet management provides comprehensive cart data to significantly reduce or eliminate cart downtime
- Monitoring helps improve battery life expectancy
- Provides real-time insight into usage patterns, drawer access, battery charge/life and more
- There are no concerns with HIPAA compliance because StyleLink SKY software is isolated from patient records
- Easy to get, fast to implement

StyleView™ Lean WOW™ Cart, SV10 Lightweight “Workstation On Wheels”

Simple documentation cart for your display or all-in-one computer

- Large 23" x 20" (58,4 x 50,8 cm) worksurface has plenty of space for keyboard, scanner and small items
- Small footprint fits into tight spaces
- Height-adjustable column moves 16" (40 cm), so you work comfortably sitting or standing
- Monitor riser provides additional height adjustment for the display; supports displays up to 24" (61 cm), 6–16 lbs (2,7 x 7,3 kg)
- Retractable mouse shelf pulls out left or right easily, then stows away when not needed
- Comfortable rounded handle is conveniently tucked under the worksurface
- T-slot channel interface on the cart's column allows integration of accessories
- Enclosed cable management cubby beneath the worksurface stores power adapters, cables and even an ultra-small computer

#SV10-1300-0

StyleView Patient eTable

Aligning with patient engagement initiatives

From education to entertainment, the StyleView Patient eTable aligns perfectly with rapidly growing patient engagement initiatives in healthcare settings.

- Positions easily over a bed or chair, so it's perfect for use in hospital rooms, chemotherapy or dialysis treatment

areas, and long-term care facilities

- Open architecture design supports virtually all patient or hospital device configurations
- Includes 2 easily accessible USB ports for connectivity and device charging
- Device charging “tech bay” on the rear edge also can be used for storing small items
- A seamlessly integrated arm puts the tablet within reach, connecting patients to caregivers, information and entertainment
- Surface height from either side up to 16" (40,6 cm); height adjustment range is 30–46" (76,2–116,8 cm)
- Large surface area 30" x 19" (76,2 x 48,3 cm) provides ample room for eating meals, writing or using personal items
- An integrated pull-out drawer and optional basket accessories help keep personal belongings within reach

Telehealth: Connect. Consult. Collaborate.

StyleView™ Telemedicine Carts

StyleView Telemedicine Carts are specifically designed and configured to support the increasing demands of telehealth — the use of telecommunication technologies for remote patient care. Telemedicine can expand care by enabling connection and collaboration with specialists or teams, regardless of their physical locations.

Open architecture

Allows for easy integration of standard equipment

Lots of connectivity

A total of 5 USB ports are integrated into cart (3 within bin and 2 on the back side); 1 ethernet port is available on the side of the head unit

Everything you need

Camera and Codec/CPU support, secure and ample storage, connectivity and power outlets

StyleView quality

Hospital-grade construction, ergonomic and secure

Worldwide availability

Safety certified

Entire cart and power system is certified to UL/EN/IEC 60601-1 and CAN/CSA C22.2 No. 601.1 M90. (Other country-specific certifications currently pending)

Camera shelf holds web or videoconferencing camera

Dual monitor configuration shown

Also available as single monitor and back-to-back monitor configurations

Ethernet port connectivity

Secure, auto-locking drawer system

Codec/CPU Holder

Medical-grade power cord

Large, configurable bin provides 3 USB ports, adjustable dividers and secure storage for several diagnostic devices with cables
Cart designed for neat and compact cable management

Two additional USB ports are accessible on the back side of bin for connecting additional devices

Rechargeable SLA (Sealed Lead Acid) battery provides dependable, safe and low-cost power

Visit ergotron.com for all StyleView Telemedicine Carts, configurations, accessories and country-specific part numbers

StyleView Telepresence Carts

(North America only)

Telepresence allows medical professionals to conduct 'virtual' patient appointments easily and cost-effectively. This capability is particularly effective for patients with physical limitations, chronic illnesses and/or transportation issues, so it's ideal for in-home care or care facilities.

Transform an existing StyleView Cart* into a low-cost telepresence cart

(Available worldwide)

Telepresence Kits let you easily convert an existing StyleView cart* for use in telepresence applications — combining the power of videoconferencing with the point-of-care benefits of StyleView. Upgrade kits include a large storage drawer (with divider and keys), travel stop, camera shelf for video/web camera, and a Codec/CPU holder. Then choose from single, dual or back-to-back monitor options.

StyleView Telepresence Upgrade Kits:

97-870 **SINGLE MONITOR**

97-872 **BACK-TO-BACK MONITOR**

LX Wall Mount Systems

Enhances interaction between the caregiver, patient and the patient's data

- Ultimate flexibility of monitor and keyboard positioning
- 20" (51 cm) height range allows users to switch between sitting and standing positions for a healthier way to work
- Ergonomic back-tilt keyboard tray ensures wrists remain in a neutral position to increase comfort and help avoid repetitive-stress injuries
- Keyboard platform is very stable for extensive data entry and tested to be 3 times more rigid than other keyboard arms
- Rotation Stop on wall mount base limits turn of extension base connection to 180°, preventing extension from contacting wall

Sit-stand ergonomics—secure, compact and enclosed

Perfect for space-constrained patient rooms

StyleView Enclosures provide a smooth vertical height adjustment and folds up into a slim, compact unit when not in use.

Sit-stand ergonomics

Move from a sitting to a standing position whenever you want. True ergonomic designs provide a healthier, more comfortable way to work.

Extreme security and stability

A keyless locking mechanism protects patient data for compliance with privacy requirements and a unique cable management system conceals and organizes the cords, making cleaning a snap! Its stable, slide-out keyboard can support extensive data entry.

Folds to less than 4" (9,7cm)

Neo-Flex Dual Monitor Wall Mount and Keyboard Wall Mount

Maximize your space! This low-profile system enhances PACS implementation by providing convenient access to digital records. Tilting dual monitors reduce glare and improve sight lines. The wall-mounted keyboard tray lets you enter data at the point of care, then folds up flat — just 5" (13 cm) from wall — when not in use.

Neo-Flex Dual Monitor Wall Mount
28-514-800 (grey & black)

Neo-Flex Keyboard Wall Mount
45-403-062 (grey)

Neo-Flex Wall Mount Lift

Add greater range of movement to your LCD display: raise or lower it 5"; pan, tilt and rotate 90°. Its slim profile makes it perfect for areas where space is at a premium.

60-577-195 (black)

200 Series Combo Arm

Attach your LCD and keyboard to free up space. This wall unit solution features 3-point telescoping motion, providing greater reach to bring the system to where it is needed.

Worksurface with pull-out keyboard tray facilitates caregiver workflow

- ① Patented Constant Force™ lift-and-pivot motion technology provides premium 25" (63,5 cm) LCD height adjustment, portrait-to-landscape rotation and 30° tilt
- ② Durable, easy-to-clean exterior composed of aluminum and high-grade plastic
- ③ Integrated mouse and barcode scanner holder provide easy access
- ④ Fold-down worksurface/keyboard tray to support workflow needs. Worksurface is 22.75" W x 10.6" D (57,8 x 26,9 cm). Keyboard tray is 18.6" W x 9" D (47,2 x 22,8 cm)
- ⑤ Ergonomic back-tilt keyboard tray ensures wrists remain in a neutral position during data entry. Includes slide-out mouse tray
- ⑥ Clean, concealed and neat routing of cables through the expansive cable management system
- ⑦ Extend LCD and keyboard up to 43" (109 cm) from wall; fold equipment back out of the way when not in use. With worksurface in storage position, system depth is as little as 8" (20,3 cm). With keyboard in storage position, system depth is as little as 12" (30,5 cm)
- ⑧ Optional Extender Arm increases range of motion for even greater reach

StyleView Sit-Stand Combo System with Worksurface and Extender Arm folds to 8" (20,3 cm)

StyleView Vertical Lift for high-traffic areas folds up into a slim, compact unit when not in use

Compact ergonomics; extremely low profile

Ideal for patient rooms and high-traffic areas, StyleView® Vertical Lifts give caregivers ergonomic comfort in a compact, low-profile wall mounted workstation. In a patient room setting, the pan of the keyboard and display promotes interaction, and the slide-out keyboard tray provides caregiver with comfortable data entry. Units fold up to as little as 4" (10,2 cm) deep when not in use.

Sit-Stand Vertical Lifts allow users to adjust between sitting and standing working heights. The entire system—monitor, keyboard and mouse—moves vertically 18" (46 cm) with a single, smooth motion to accommodate the heights of multiple users.

Radiology Tables: Advanced technology for effective image reading (North America only)

Carl's Table CT15 for Radiology (pictured right)

- Work sitting, standing or reclining
- Height range adjusts 30–49.5" high (76,2 x 125,7 cm) with electric legs; table tilts 0–15 degrees
- Programmable presets let users record up to 100 sit/stand/recline positions
- Unique Monitor Control System adjusts the height and depth of the monitor bar with push-button control
- Supports up to 3 monitors; upgradable to 4+1 modality

Steve's Station Essential for Radiology (pictured left)

- Electric lift sit-stand legs and spring lift keyboard surface combine for a height range of 54.5–22.25" (138,4–56,5 cm)
- Innovative Monitor Easy Track reduces eye strain; easily slide the entire bank of (up to six) monitors forward and backward in unison
- Contoured surfaces feature smooth, curved edges that are ergonomically comfortable
- Four pre-configured kits expand the desk and support unique modalities
- Supports weight and lift capacity of 200 lbs (90,7 kg)

For more information, email radiologypresale@ergotron.com

Optimal viewing for large displays

Get unprecedented height adjustability in an extremely low profile module. The revolutionary design of our Glide Wall Mounts lets users effortlessly raise and lower large displays by up to 18" (46 cm) and tilt the screen up to 10° to avoid glare.

Similarly, our Interactive Arms let you easily lift, swing or turn displays for optimal viewing while relieving eye, neck and back strain.

The broadest and best selection of charging systems!

Zip40 Charging Cart

Ergotron and Anthro Corporation have teamed up to offer the broadest and best selection of charging systems in the industry!

Manufactured in the USA, Anthro-DNA YES® charging carts and wall cabinets are a perfect complement to existing Ergotron charging system products.

Ergotron and Anthro-DNA strengths include:

- Fastest charging times with PowerShuttle® technology
- Universal designs fit all devices: tablets, laptops, Chromebooks and more
- Sleek, compact designs; carts have small footprints and easy maneuverability
- Durable, solid construction with security and separate IT locking areas
- Managed & unmanaged versions
- UL or ETL certified and tested for safety to UL 60950 standard

YES Charging Wall Cabinet (North America only)

The quickest charge for your tablets and laptops

Ergotron PowerShuttle® technology is a patented, embedded control system that monitors incoming current from the wall outlet and distributes it to microprocessor-controlled outlets inside the charging cart to quickly, efficiently and safely charge your devices.

- PowerShuttle charges up to 40% faster than competitors' round-robin charging systems
- Doesn't require manually switching between outlets or adjusting timers
- Limits inrush current—the instantaneous current draw when you first power on
- Prevents nuisance tripping of site circuit breakers and electromagnetic interference with other devices
- Keeps you safe from arc at the plug and hazardous touch currents

Why should you care about safety certification for charging systems: the risks of using non-certified products

- 1 Critical materials are not fire resistant—*This is a fire hazard if a battery or electrical fault occurs*
- 2 Electrical hazards are not physically enclosed—*Shock hazards exist if energized circuitry can potentially be touched either directly or if exposed metal is not safely grounded or properly isolated. Fire hazards can exist if the enclosure can potentially let out flames or molten metal if an electrical fault occurs inside of the enclosure*
- 3 Mechanical hazards are not mitigated—*If not properly tested and certified, pinch points, tip, crush or cut, sharp edges, and moving parts can injure users*
- 4 Equipment ratings must meet National Electrical Code—*Non-evaluated systems may exceed allowable load limits causing electrical arcing, facility problems and/or interaction and interference with other equipment*
- 5 No manufacturing factory quality surveillance—*Product quality and consistency must be managed and ensured*

SAFETY CERTIFICATION
UL 60950 Safety of Information Technology Equipment, CAN/CSA C22.2 No. 60950
UL 1678 Household, Commercial, and Institutional-Use Carts, Stands and Entertainment Centers for Use with Audio and/or Video Equipment
ICES-003 Issue 4, Class A
FCC Part 15 Class A
Country-specific certification as required
RoHS and Reach compliant material used

Charging Locker

Secure device charging for multiple users in a variety of environments

The Charging Locker is ideal for educational institutions, healthcare facilities, airports, hotels and all types of businesses where multiple users need secure charging capability. Its petite footprint saves space, and for additional user support, two Lockers can be securely stacked together.

- Charging Locker offers five roomy and separate bays within a small footprint
- Charges up to 15 devices (three per bay); includes 1 USB and 2 AC outlets
- Brackets attach locker to wall or countertop, keeping unit stable and secure
- Each bay door has a programmable lock for a unique code every time

The Charging Locker Pedestal accessory elevates the Charging Locker off the floor by 18" (45 cm) making it easier to reach the bays #98-137-A68

The science behind the need to stand

The American Medical Association (AMA) agrees that sitting for extended periods of time can be bad for personal health. Their newly adopted policy recommends business organizations offer sitting alternatives, including standing desks.

A recent study published by the CDC (Centers for Disease Control) indicates adjustable sit-to-stand products are an effective solution for reducing prolonged sitting. Sit or stand, instantly, while remaining effectively engaged with your computer.

A 2010 University of Queensland, Australia study found that even when adults meet physical activity guidelines, sitting for prolonged periods can compromise metabolic health.

Sit less. Stand more. Start now!

Take a stand against illnesses linked to prolonged sitting

For more than three decades, Ergotron has designed ergonomic workstations to make computing more comfortable and better for you. Our extensive line of sit-stand workstations and desks gives computer users a much healthier and more productive way to work.

Sit-stand workstations are:

FLEXIBLE — a solution for every computer user and every computing configuration

ERGONOMIC — effortless height adjustability for sit-stand comfort; accessories also available

AFFORDABLE — many economical ways to fight "sitting disease"

NEW! WorkFit-TX Sit-Stand Desktop Workstation

Premium ergonomics any way you work

- Delivers leading ergonomics sitting or standing with 17" (43,2 cm) of vertical height adjustment, plus 3" (6,2 cm) of keyboard adjustment
- Ultra-low design offers a sleek look and ergonomic fit for a wide range of users
- Drop-down tray places your keyboard at the most comfortable ergonomic position
- Ships fully assembled with out-of-the-box installation that gets you standing faster
- Guaranteed with a full five-year warranty

Customer focused. Certified expert technicians.

From expert product installation and preventive maintenance to next-day on-site service, Ergotron offers a variety of service packages to meet your organization's ongoing product support needs.

The all-inclusive approach to our service packages makes them a predictable expense for your organization. Packages are available pre- and post-sale.

A range of services are available:

- Installation and integration
- Next-business-day on-site service
- Preventive maintenance
- Extended warranties
- In-warranty and post-warranty repairs
- In-depth product training on site
- Equipment audit and health check

Ergotron certified service packages make life easier for all stakeholders and are designed to protect your investment

Our certified service technicians can help you:

- Seamlessly integrate and deploy products, including integrating hardware, making proper adjustments and managing cables
- Prevent costly downtime
- Alleviate burdens on your internal resources

Services are available for:

- LearnFit desks
- Charging systems
- WorkFit sit-stand workstations
- Desk and wall mount monitor arms
- Powered desks
- StyleView medical carts and wall mounts
- Mobile workstations
